

Filobater Nader

Front-End Web Developer

EXPERIENCE

ERP-SYSTEM

Nov 2023 - Jan 2024 , Cairo

designed with code and develop a highly functional and responsive system using next.js and tailwind css. crafted visually compelling and interactive charts that transformed raw data into actionable insights, and that helped in view the recent sales made.

Oro dashboard

4-5-2023 - 15-5-2023 , Cairo

I built this dashboard using next js and tailwind css and some technologies like react query and react formik. I managed to do all the CRUD operations, made different routes specific to each role and made it fully responsive.

GASB

15-2-2023 - 20-2-2023 , Cairo

I built this website for gasb conference 2023 using next js and bootstrap 5 with fully responsive.

Luveina

Nov 2022 - Jan 2023 , Cairo

Refactored the code and built the new port-view.

Frontend Developer

Poly.codes

Jun 2022 - Present , Cairo

I designed and implemented web applications.Despite I created the agency's web application fully responsive.

UI Developer

SEAY News

Apr 2021 - May 2021 , Cairo

Implemented the Ui pages using HTML and CSS with a great responsive.
